

Serial No. 10/634,732 filed 8/5/2003
Amendment dated Feb. 2, 2005
Response to Office Action of Aug. 2, 2004

Abstract

Improved no-spill drinking products including a nipple or soft spout having a valve incorporated therein. The valve is designed to provide an enhanced no-spill function providing an extremely secure seal against accidental liquid flow from the nipple or spout when the user is not drinking therefrom.
